## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group I, Species I in the reply filed on is acknowledged. The traversal is on the grounds Applicant's mere assertion that the method applies to various crops and that all inventions are related. This is not found persuasive because Applicant is claiming different methods with different steps and different crops. Some methods have steps that are not included at all in the other methods. The methods are performed alternately and not together. Applicant does not state that the methods are obvious over each other.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 5,044,147 to Klinner, cited by Applicant.

Klinner discloses a method of harvesting crops comprising:

- stripping leaves from the stem at a first time (Col. 1, lines 11-17)
- harvesting the stem at a second time after the first time (Col. 17, lines 13-14)

Regarding claim 2, the stem is cut at the first time and allowed to dry in the field until the second time (Col. 17, lines 13-24).

Art Unit: 3671

Regarding claim 3, the crop is alfalfa (Col. 1, lines 18).

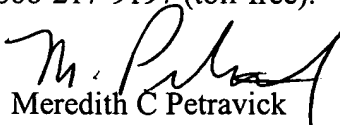

*Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
